Hi Jerry,

1. I can confirm that Volume I dated 1973, and Volume II dated 1974 were submitted with your April 1981 primacy application.
2. Neither of these volumes are noted on the front covers as “First”, “Second” or “Third” editions. We have no information about a “first” edition dated 1960 for either Volume I or Volume II. These are your publications so presumably you have the more definitive information on the existence of these earlier editions.
3. Volume III was not submitted with the 1981 primacy application. I am guessing it was submitted as part of the 1425 Demonstration. If you look at the signature page of the MOA, it refers to three items that were included in the 1425 demonstration :
  - a. The primacy application dated April 1981 – which included the 1973 Volume I, and the 1974 Volume II
  - b. Additional information dated March 1982 – presumably Volume III, Third edition dated 1981 ( our records indicate that there was a first edition dated 1960; second edition dated 1973; supplement dated 1978; and third edition dated 1981). Our records do not include a fourth edition. We have only the third edition (1981) in our files.
  - c. Letter dated September 1982. I recall discussing this with you before – I think this is a Sept 28, 1982 letter from M.G. Mefferd, DOG to Nathan Lau, EPA.

Sincerely, Michele

**Subject:** RE: MOA Documentation

Our Volumes have the following editions:

Volume I – 1<sup>st</sup> (1960), 2<sup>nd</sup> (1973), 3<sup>rd</sup> (1985) and 4<sup>th</sup> (1998).

Volume II – 1<sup>st</sup> (1960), 2<sup>nd</sup> (1974), Reprint (1982) and 3<sup>rd</sup> (1991)

Volume III – 1<sup>st</sup> (1960), 2<sup>nd</sup> (1973), Supplement (1978), 3<sup>rd</sup> (1981) and 4<sup>th</sup> (1982).

My understanding is that Volume III was really a part of Volume I until the 2<sup>nd</sup> edition, after which it was spun-off as a separate volume (Volume III). Presumably, our primacy application submitted Volume I (2<sup>nd</sup> ed. -1973) and Volume II (2<sup>nd</sup> ed. – 1974).

I don't know what edition of Volume III was submitted to the EPA? Can you please check this.  
Thanks.

Jerry

Hi Jerry,

Can you please clarify – you are looking for which edition of Volume III, not Volumes I and II, that was included with the Primacy Application?

**Subject:** MOA Documentation

Hello Michele,

We are trying to complete some documentation in response to a Public Records Act (PRA) request on aquifer exemption and an item I would like to clarify are the references in our MOA cited in defining what our exempted aquifers were. In our primacy document, DOGGR cited the publications “California Oil and Gas Fields” Volumes I and II. Presumably, based on the timelines, these were the Volume I – 1973 and Volume II – 1974 editions. In the MOA, Volume III was already cited and referenced. I want to confirm from you what edition was submitted and received by the EPA as part of DOGGR’s primacy application documentation. I’m not sure whether it was the Fourth Edition – 1982 or the Third Edition – 1981?

Thanks for your help and clarification.

Jerry
